

Pressure

- DPHarp Pressure Transmitters: Differential , Gauge, and Absolute

Flow

- Vortex Shedding: Multi-variable, Cryogenic, Steam, Gas, Liquid Applications
- Magnetic: 0.10" to 40", Wafer, Flanged, 2-Wire, and Capacitance
- Coriolis: Liquid & Gas Service, Density, Sanitary, Batch
- Flow Transmitters: Multi-variable Outputs & Steam Density
- Averaging Pitot dP Meters for Liquid-Gas-Steam

Temperature

- Temperature Transmitters & Sensors; RTD's & Thermocouples

Level

- Hydrostatic Level: Flange, Tank Mounted, & Remote Diaphragm Seals

Analytical

- Liquid Analyzers & Sensors: pH, ORP, Conductivity, and Dissolved Oxygen
- Gas Analyzers: In-situ O2 , Chromatographs, TDLS , IR, Density

Control & Recording

- Single & Multi-loop Controllers
- Video Recorders: Touch Screen, Ethernet, Web Browser
- Data Acquisition Systems: Ethernet, Web Browser
- Wireless, Plant Wide: ISA100.11a Standard
- Wireless Integrated with Video Recorders & Data Acquisition

Gas Detection

- Industrial - Municipal - HVAC Applications
- Gas Detection for Combustible and Toxic Gases, O2 Depletion, Open Path IR
- Refrigerant Monitors
- Flame Detectors
- Calibration & Testing Kits: Regulators, Tubing, and Gases

Level

- Radar - Non-contact and Guided Wave technologies
- RF Admittance / Ultrasonic / Magnetostrictive / Hydrostatic submersible
- Vibration Technology / RF Admittance / Ultrasonic / Conductivity / Float Switches

Pressure & Temperature

- Pressure Switches and Transmitters
- Temperature Sensors & Assemblies: RTD's, Thermocouples, and Thermowells

Pressure Relief

- Rupture Disks: Graphite, Metal, Sanitary, and Burst Sensors

Humidity

- Precision Hygrometers - ceramic and chilled mirror sensing technologies
- Calibrators and Calibration Systems

Temperature

- Infrared Non-Contact Temperature Sensors & Line Scanners
- Thermal Imaging Came

Flow

- Mass Flow Controllers & Meters: Thermal & Coriolis Technologies
- Variable Area Flow Meters: Glass, Metal, & Acrylic

Flow

- Thermal Dispersion Mass FlowMeters for Air & Gases: Insertion & In-Line
- VORTAB® Flow Conditioners
- Flow Temperature & Level Switches for Liquid, Air, & Gas

Flow

- V-Cone Primary Element for dP Flow ½” to 120” Sizes
- Insertion Magnetic Flowmeters: Full Profile Insertion & Single Point Insertion

Flow

- Turbine & Positive Displacement Flow Meters: Process, Sanitary, & Low Flow
- Ultrasonic Flow Meters: 3/8” to 12”

Flow

- Air Flow Measuring Stations & Probes
- Ultra Low Range dP Transmitters

Analytical

- Refractometers for On-Line Process Analysis of Concentration, Brix

Heat Exchangers

- Shell & Tube, Plate & Frame, Brazed Plate, and Air-Cooled Condensers

Valves

- Linear Control Valves, Rotary Valves, Pressure Reducing Valves

Valves

- Precision, Rugged Control Valves for Industrial and HVAC Applications
